I. THE MILITARY SITUATION IN SOUTH VIETNAM

1. Action in northern I Corps has shifted from the US Marine positions immediately below the DMZ in northeastern Quang Tri Province back to the Khe Sanh area where a Marine company made heavy contact with enemy forces on 9 May. A preliminary casualty report indicates that 24 Marines have been killed and 19 wounded thus far, in contrast to enemy losses of 25 killed. The engagement is continuing, at last report, in an area seven miles northwest of Khe Sanh.

2. Extensive Communist fortified positions have been noted recently in this general area, extending northwest from Hill 881 into Laotian territory where aerial observation on 30 April revealed a major North Vietnamese complex of camouflaged bunkers and trenches. For the past several days B-52s have been bombing the positions northwest of Khe Sanh in western Quang Tri Province.

members of an ethnic Khmer irregular force which has operated along the South Vietnam - Cambodian border for many years. One of the "majors" claimed that his battalion engaged a Viet Cong force several weeks ago and as a result was badly scattered. More than 20 American and French weapons were surrendered by the group. Interrogation of the Khmers is continuing and may provide further details.
